

SCIENCE EXPO 2019

SATURDAY, MARCH 9, 2019

Science for EVERYONE!

Science Expo time is here! The Expo will be held on Saturday, March 9th from 10:00am –2:00pm. All students from Preschool through 6th Grade are encouraged to participate. The Science Expo is a non-competitive exhibition of our students Science collections, projects, and experiments. Every student will have the opportunity to submit a project following the guidelines included in this packet. Siblings and friends in Preschool through 5th Grade may work together on the same project.

Sign Up NOW!

Entry forms are included in this packet. All **entry forms** for each student must be submitted by **Friday, February 22, 2019**, and be accompanied by a \$10.00 entry fee. Please write the check payable to *Meadowbrook School* or include cash. All students entering on time will receive a t-shirt with an imprinted design created by a Meadowbrook student.

Science FUN!

Participating in the Science Expo is a great way to learn something about science and share it. Everyone attending the Expo will be able to complete a scavenger hunt for prizes, attend science programs, and participate in special activities planned especially for that day. Specific details about those events will be coming as the date approaches.

So, if we start to plan now, there will be plenty of time for the students to prepare. Please consider supporting our Science program by entering an exhibit and joining us with your whole family for an exciting, fun event!
